EXPERIENCE

KGM, Coimbatore — *Technical Trainer*

Jul 2023 - PRESENT

● Results-driven technical trainer with a passion for knowledge transfer and skill development.

● Proven expertise in designing and delivering engaging training programs for diverse audiences

The Spark Foundation, Remote — *Web Developer Intern*

Apr 2023 - May 2023

● I learned front-end development tasks such as HTML, CSS, and JavaScript coding, ensuring cross-browser compatibility and responsiveness.

● Implement user interfaces and front-end components using React.js, ensuring high-quality code and optimal performance.

PROJECTS

Weather Application – Plain JavaScript, OpenWeather API

● With this React weather app, users can effortlessly check the current weather conditions, temperature, and forecast for any location worldwide.

React_Bootstrap Website - React Js, React-Bootstrap

● By incorporating React Bootstrap, I efficiently designed and implemented beautiful UI components such as responsive navigation bars, interactive models, sleek buttons, stylish forms, and more.

CRUD Operation - React JS, Axios, mock API

● Leveraging the power of React.js, a leading JavaScript library for building user interfaces, and Axios, a versatile HTTP client, I successfully implemented a seamless CRUD functionality within my application.

React Form Validation — *React Js, useForm, yup*

● This project showcases expertise in front-end web development, validation techniques, and asynchronous data handling.

EDUCATION

KGiSL Institute of Information Management, Coimbatore — *MCA*

SEPTEMBER 2021 - MAY 2023

CGPA - 7.4%

CMS College of Science and Commerce, Coimbatore — *B.Sc Computer Science*
